What secondary roles do you perform (circle as many as are applicable)

Network
Engineer

System
Administrator

Admin/
Leader

Professor/
Researcher

Other (please specify):

Q1. Overall Training Evaluation

	No	A little	Some/ Slightly	Most/ Partially	All/ A lot
Where applicable:	1	2	3	4	5
Were your aims/objectives of the training met?					
Was the workshop well organized?					
Will the training sessions help you in your work?					
Is the training content useful to others in your institution?					
Will you pass on to others what you have learned?					
Will you change anything in your network as a result of this workshop?					

Please specify what you think you will do differently as a result of participation (no matter how small). This may include activities you will start doing, activities you will do differently and activities you will stop doing.

• Description one

• Description two

• Description three

Q2. What were your personal objectives in attending this course?

Q3. What were the **most** useful parts of the workshop and why?

Q4. What were the **least** useful parts of the workshop and why?

Q5. What did you learn from the workshop that could be passed on to your colleagues at your own institution?

Q6. Indicate which aspects (e.g. planning, during the visit, follow-up) of this workshop could have been done better and suggest possible ways of improvement.

We welcome any additional comments and suggestions which you care to include here or on a separate page.

Thank you for your feedback!
